DAYTRADER'S ALERT!

Alerting you to companies that could be some of the Street's best kept secrets, but that may not remain that way for long!

Wellstone Filters Inc.

OTCBB: WLSF

Current Price: \$0.59

October 21, 2004

Stock Symbol: WLSF Current Price: \$0.59
52 week High: \$5.65 52 week Low: \$0.31

Investment Highlights

- **THIS JUST IN:** WLSF reported that it has engaged a Federal Trade Commission (FTC) approved testing facility to test its proposed "full flavor" cigarette for tar and nicotine content. The "full flavored" cigarette will be designed to compete with similar cigarettes currently on the market, based on an attractive price as well as better taste!
- **Things are really starting to gear up!** WLSF also announced that it has retained The Ron Cook Agency for production design and graphics for WLSF's new patented filter technology cigarettes. The initial design concept has been formulated, and the company expects the package design to be finalized so that it can be submitted to the FTC for review.
- **It is a multi-billion dollar industry with a multi-billion dollar problem!** According to the *Center of Disease Control and Prevention (CDC)*, each year more than 400,000 Americans die from cigarette smoking, claiming more than 276,000 men and 142,000 women!
- The major manufacturers reported that they sold 398.3 billion cigarettes domestically in 2001.
- **Taste test!** An initial small-scale double-blind taste test (12 individuals with an average age of 41, average smoking duration of 18.4 years, and smoked an average of 1.29 packs/day) revealed that 67% preferred the taste of cigarettes with the WLSF's filter to those with a standard filter. The remaining 33% did not prefer one to the other!

Corporate Snapshot

It has become one of the world's most controversial habits. It has been deemed socially acceptable by most, however **it is responsible for every one in five deaths here in the United States.** And there is a real good chance that you know someone who does, did, or will in the near future. You may also know someone who has been affected by its devastating consequences. The fact remains that cigarette smoking is the single most preventable cause of premature death in the United States.

As the markets are undergoing extreme fluctuations and turbulence, timing is everything! Some investors are realizing that gains of 100%+ (not likely with well known stocks) are possible with OTC stocks. This stock could be one of the street's best kept secrets, but may not remain that way for long! Our alerts present what may be new opportunities to get in while trading levels are still low and before mainstream investors start paying attention!

The popular solution has been a single word; **quit.** But many do not realize the difficulty and challenges of this task. Taking a different approach to the hazards from smoking, and focusing not on the habit, but the cigarette itself, **Wellstone Filters Inc. (OTC BB: WLSF)** has developed and patented a harmless chemical compound that is inserted into cigarette filter cavities during the process of manufacturing the cigarettes. This patented product effectively removes carcinogens and other toxins produced when tobacco is smoked without removing the compounds responsible for the pleasurable effects of smoking. The product is designed to remove carcinogens from tobacco smoke by trapping nucleophiles and tars that are formed during combustion. WLSF also recently reported that it would manufacture and market its own proprietary brand of cigarettes under the "Wellstone" trade name. According to the 9/13/04 press release, sales of the WLSF brand are expected to begin in calendar 2005.

As cigarettes continue to claim lives, the bottom line is this: **The need for a solution, one way or the other, is in desperate need!**

Always consult a professional investment advisor and remember that OTC stocks like WLSF are considered extremely risky, and you could lose your entire investment! This is NOT professional investment advice; this is a paid advertisement! It is not an offer to sell, or a solicitation to buy any security. It is for informational purposes only, and created without regard to any investors' individual needs, or the financial condition or stability of the company it is written about. This advertisement has not been seen or approved by anyone at the company that it is written about and therefore the company does not endorse the content or distribution of the advertisement. Do your own research! Unitway International Trading Ltd (UIT) was paid, eighty four thousand dollars by a third party who is not affiliated with WLSF and who was paid one hundred and seventy five thousand dollars for this report on Wellstone Filters Inc. (OTC BB: WLSF). Any companies mentioned in this report may, or may not, be experiencing liquidity issues and may require additional capital to continue operations.
